

# Checks and Balances: Bank Practices in Oklahoma

*Checks and Balances: 2014 Update* studied 44 of the nation's 50 largest banks, as determined by volume of deposits, (six did not provide account information to Pew) and documented their use of best and good practices in the areas of disclosure, overdraft, and dispute resolution. The following information reflects data from banks operating in Oklahoma that made their account disclosures available to Pew. The data do not represent all banks operating in the state. Of the 44 banks Pew studied, six operate in Oklahoma and account for 12 percent of all deposits in the state. Of the six banks that did not provide information, one operates in Oklahoma and accounts for 1 percent of all deposits in the state.
