

The State of Children's Dental Health: Making Coverage Matter

Nevada

2011 GRADE

Nevada meets half of the eight policy benchmarks aimed at addressing children's dental health needs. In 2009, the state surpassed the threshold of Medicaid-enrolled children receiving dental care, even though Medicaid reimbursement slipped slightly in relation to dentists' usual fees. And Nevada still just misses the benchmark for fluoridation, with 72 percent of its citizens on community systems receiving optimally fluoridated water.

HOW WELL IS NEVADA RESPONDING?

2011: **C**

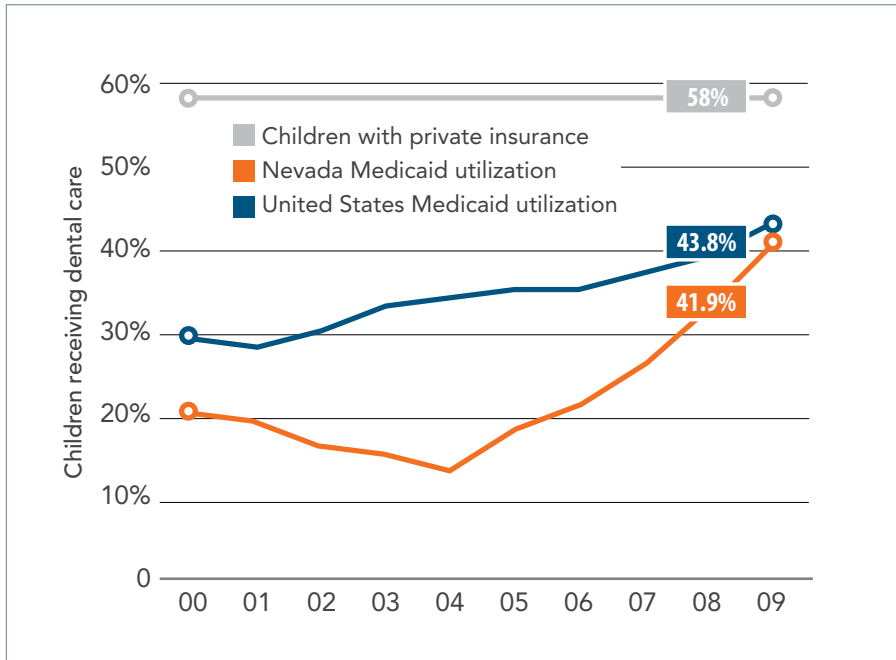

2010: **D**

DATA YEAR	MEASURED AGAINST THE NATIONAL BENCHMARKS FOR EIGHT POLICY APPROACHES	STATE	NATIONAL	MEETS OR EXCEEDS	MET OR EXCEEDED
2010	Share of high-risk schools with sealant programs	<25%	25%		
2010	Hygienists can place sealants without dentist's prior exam	YES	YES	✓	✓
2008	Share of residents on fluoridated community water supplies	72.0%	75%		
2009	Share of Medicaid-enrolled children getting dental care	41.9%	38.1%	✓	
2010	Share of dentists' median retail fees reimbursed by Medicaid	54.7%	60.5%		
2010	Pays medical providers for early preventive dental health care	YES	YES	✓	✓
2010	Authorizes new primary care dental providers	NO	YES		
2010	Tracks data on children's dental health	YES	YES	✓	✓
Total score				4 of 8	3 of 8

Grading: A = 6-8 points B = 5 points C = 4 points D = 3 points F = 0-2 points

HOW BAD IS THE PROBLEM?

Too many children lack access to dental care, with severe outcomes. One measure of the problem: more than half of the children on Medicaid received no dental service in 2009.
