

ONLINE LOOKUP TOOLS FOR VOTERS

2012

Five important online election tools to help voters find the information they need the most are summarized, and their availability in all 50 states and the District of Columbia's official election websites for the 2012 November election is shown below.

These lookup tools help voters find: polling place location, registration status, absentee ballot status, provisional ballot status, and precinct-level ballot information. These tools help provide valuable election information to voters where they are most likely to look for it—online.
