6a. Thinking specifically about the federal government, when it comes to ensuring that food produced in the United States is safe from contamination, do you think that the federal government is doing too much, doing the right amount, or doing too little?

Doing too much.....	3
Doing the right amount .....	51
Doing too little .....	37
Not sure .....	9

6b. And thinking again about the federal government, when it comes to ensuring that food produced in other countries is safe from contamination, do you think that the federal government is doing too much, doing the right amount, or doing too little?

Doing too much.....	2
Doing the right amount .....	30
Doing too little .....	60
Not sure .....	8

7. Do you think that the federal government should be responsible for ensuring that food is safe to eat, or is this something that the federal government should not have responsibility for?

Government should have responsibility .....	84
Government should not have responsibility ....	10
Not sure .....	6

**I'd like to ask you some questions on the issue of food safety. When I talk about food safety I mean food that is safe to eat and free of any contamination by bacteria that make people sick.**

8. Has what you have seen and heard in the news over the past year or so made you more confident or less confident in the safety of food that is sold here in the United States?

More confident.....	21
Less confident .....	56
Made no difference (VOL) .....	20
Not sure .....	3

9. Approximately how often do you feel that the Food and Drug Administration, or FDA, should conduct inspections of factories and other facilities that produce food in the United States?

Yearly, annually, once per year	11%
Twice per year, every 6 months, biannually	14
Quarterly, ever 3 months/90 days, 4 times per month	11

Daily, once per day, every day	4
-----	-----
Non-specific responses (e.g., "as often as possible")	30
-----	-----
Don't know; no response	8%

10. Congress is considering legislation to improve food safety in the United States. Let me read you some provisions that could be included in this legislation. Please tell me whether you strongly favor, somewhat favor, somewhat oppose, or strongly oppose each of these provisions.

*THIS TABLE HAS BEEN RANKED BY THE PERCENTAGE WHO SAY STRONGLY FAVOR*

	Favor		Oppose		Not Sure
	Strongly	Some-what	Some-what	Strongly	
Requiring foreign countries that export food to the United States to certify that their food safety programs and standards are at least as good as those in the United States.....	85	9	2	3	1
Requiring tracing systems for food that enable the FDA to quickly trace food back to where it originally came, thereby allowing the government to respond rapidly to a food contamination incident.....	81	14	3	2	-
Requiring the FDA to inspect food facilities that process high-risk foods at least once every six to twelve months.....	77	17	1	4	1
Requiring that food companies test their products for contamination and that the companies report to the government test results that show possible harmful contamination.....	77	16	2	3	2
Requiring growers of fresh fruit and vegetables to meet standards for water quality, manure use, and worker sanitation.....	73	18	3	3	3
Giving the FDA the authority to issue mandatory food recalls and to detain and destroy food products that it has reason to believe are unsafe.....	72	19	4	4	1
Giving government food inspectors broad access to food company records related to food safety.....	71	21	3	4	1
Giving the FDA the authority to impose fines against food companies that do not follow safety standards without having to go to court.....	58	26	7	7	2
Allowing states to set food safety standards that are more strict than those of the federal government.....	46	34	11	6	3
Requiring food companies to pay an annual fee of five hundred dollars per factory, warehouse, or other facility to help cover the cost of FDA food safety activity.....	35	32	15	13	5

11. Would you strongly support, somewhat support, somewhat oppose, or strongly oppose the federal government putting these food safety measures in place?

<b>Support</b>	
Strongly .....	63
Somewhat.....	28
<b>Oppose</b>	
Somewhat.....	5
Strongly .....	3
Not sure .....	1

12. If you knew that this new food safety legislation would increase the cost of many of the foods you buy by three percent, do you think it would be worth it or not worth it to have these new food safety measures?

Worth it .....	79
Not worth it .....	15
Depends (VOL).....	3
Not sure .....	3

13. I'm going to read you two statements, and I'd like you to tell me which comes closer to your point of view.

**Statement A:** These safety measures should be MANDATORY, because this will ensure that all food-related businesses are meeting the same safety standards.

**Statement B:** These safety measures should be VOLUNTARY, because food-related businesses already are required to follow many regulations, and it is in their best business interest to follow the safety standards.

<b>Statement A</b> /measures should be mandatory.....	69
<b>Statement B</b> /measures should be voluntary .....	29
Not sure .....	2

14. I'm going to read you two more statements about these food safety measures, please tell me which one you agree with more.

OPPONENTS of the proposal say this is a tax on the food industry and creates unnecessary government bureaucracy. Food companies already meet strict standards because it is in their best interests to produce safe food. Local food producers will struggle to afford these new requirements and many may be driven out of business. Meanwhile, this will drive up the cost of a basic necessity for consumers in the middle of the worst recession in decades.

SUPPORTERS of the proposal say Americans have the right to be confident that the food they eat is safe. A lot has changed in the last century but our laws have not kept up. The FDA inspects food processing facilities once every ten years on average, and does not have authority to issue mandatory recalls. Recent outbreaks like salmonella in peanut products show why this legislation is so badly needed. We can protect small farmers and help them stay in business while at the same time making our food safer.

Which statement do you agree with more?

Agree more with opponents.....	23
Agree more with supporters.....	70
Depends/some of both (VOL) .....	4
Not sure .....	3

15. Getting near the end of the survey, I'm going to read you several facts about the current food safety system in the United States. All of these facts are TRUE. For each one, please tell me whether this makes you much more likely, somewhat more likely, or no more likely to support new federal food safety measures.

*THIS TABLE HAS BEEN RANKED BY THE PERCENTAGE WHO SAY MUCH MORE LIKELY TO SUPPORT*

	Likely To Support			Not Sure
	Much More	Some-what More	No More	
The FDA inspects less than one percent of shipments of food imports before they come into the United States from other countries .....	65	19	14	2
The FDA inspects food processing facilities on average only once every ten years .....	64	18	15	3
The FDA has no authority to mandate that food companies recall their products, even if it finds that food is contaminated with known toxins or disease-causing bacteria such as salmonella .....	60	25	13	2
Things have changed a lot in the last hundred years, but our food laws are still based on legislation that was passed in 1906, and have not been substantially updated in more than seventy years.....	58	24	15	3
The FDA has no mandatory rules setting safety standards for water quality or manure use that would keep contaminants out of fresh produce .....	55	25	16	4
