

PEW STATEWIDE TELEPHONE SURVEY
PENNSYLVANIA
Interview Schedule

Project #15093
Public Opinion Strategies
Hart Research Associates

February 19-23, 2015
N=800 Registered Voters (N=560 land, N=240 cell)
N=216 Public/Charter School Parents
Margin of Error N=800 =±3.46%

-
- *We conducted a statewide survey among registered voters (this data is labeled as **CORE** on the interview schedule).*
 - *In addition, we conducted oversample interviews among parents or guardians of children in public and/or charter schools to reach a sample size of at least N=200 (this data is labeled as **PS PAR** on the interview schedule).*

In this document:

- *An asterisk (*) in a response category means that less than 0.5% of respondents chose that response category and a dash (–) represents no response.*
 - *Sample A questions were shown to roughly one half of the sample, 395 registered voters.*
 - *Sample B questions were shown to the other half of the sample, 405 registered voters.*
-

Thinking about issues affecting children...

To what extent do you think each of the following HEALTH-related issues is a problem for children in the United States today? For each one, please tell me whether you consider this to be a problem or not, using a scale from zero to ten. On this scale, a "zero" means this is not a problem at all, and a "ten" means it is a very big problem. You may use any number from zero to ten for each item, depending on how big a problem you think it is. **(USE 99 FOR DON'T KNOW)**

(IF ZERO, ASK) And, did you choose zero because you do not consider this to be a problem at all, or did you choose zero because you are not sure how you feel? **(CODE AS 99 IF SAY NOT SURE, CODE AS ZERO OTHERWISE)**

	10	8-10	5-7	0-4	NOT SURE	MEAN
The first/next one is... (RANDOMIZE)

Thinking some more about the food in kindergarten through twelfth grade public schools...please tell me if you are...(ROTATE)...aware or not aware...of each of the following happening over the past two to three years?

	Aware	Not Aware	(DO NOT READ) Don't Know	Refused
11. New national nutritional standards implemented for the food served in cafeterias as part of the school meals program				
Core	73%	26%	1%	–
PS Par	77%	23%	–	–
12. New national nutritional standards implemented for the food sold in school stores, vending machines, and for a la carte items in cafeterias				
Core	71%	28%	1%	–
PS Par	69%	31%	–	–

Thinking now just about the meals program served in kindergarten through twelfth grade public school cafeterias...

13. The national school meals program provides breakfasts and lunches to many school children across the country, and provides them for free or at a reduced cost to children from low-income families. In this program, the federal government reimburses school districts for the costs of meals that meet certain nutrition standards, such as providing fruits and vegetables, limiting the use of salt, and following age-appropriate calorie limits. Individual school districts have the flexibility to build on the requirements, as long as the school meals meet basic, minimum standards. To be clear, this applies to the school meal which is a full meal that can only be purchased as a full meal--it does not include extra items that can be purchased individually for additional money.

Do you favor or oppose requiring public schools to meet these national nutrition standards for school meals?

(IF Favor/Oppose, Ask) And do you strongly (favor/oppose) or just somewhat (favor/oppose) requiring public schools to meet these national nutrition standards for school meals?

PS		
<u>Par</u>	<u>Core</u>

32%	Five days per week
—	Don't Know (DO NOT READ)
*	Refused (DO NOT READ)

Thinking now about food available to students that is NOT A PART of the public school meals program...

23. In many schools, there is also food available to students that is not a part of the public school meals program. This includes food that is sold in school stores, food and drink vending machines, and a la carte items in cafeterias, such as a slice of pizza, a container of yogurt, or a piece of fruit. There are national Smart Snacks nutritional standards that provide for more fruits, vegetables, whole grains, and low-fat dairy items as well as calorie caps on the food sold in school stores, food and drink vending machines, and a la carte items in cafeterias.

Do you favor or oppose requiring public schools to meet these national nutrition standards for food sold in school stores, food and drink vending machines, and a la carte items in cafeterias?

(IF Favor/Oppose, Ask) And do you strongly (favor/oppose) or just somewhat (favor/oppose) requiring public schools to meet these national nutrition standards for food sold in school stores, food and drink vending machines, and a la carte items in cafeterias?
