Immigration Slows Population Declines in Middle America
Change in county native- and foreign-born populations from 1990 to 2012

Note: Categories are based on calculations of the difference in county population from 1990 and 2008-2012, the difference in foreign-born population from 1990 to 2008-2012, and the difference in native-born population from 1990 to 2008-2012. Categories shown cover all possible outcomes and types of population change. Excluded counties are those with fewer than 1,000 residents in 1990 or for which no data were available.
