## Survey of American Family Finances

Top-lines accompanying "Americans' Financial Security: Perception and reality"

7,845 respondents in total.
The sample includes oversamples of black and Hispanic respondents, bringing their total numbers of cases to 1,505 and 1,502, respectively.

Note: Total number of observations does not equal the number of observations ( N ) for individual items because of missing cases and sample rotations. Some standard errors were calculated on subpopulations.
