# Pew HIT National Survey
*Interview Schedule*

Project #: 200181
June 1-July 3, 2020

N=1,213 Adults, Ages 18+
Margin of Error: +3.49%

- *This survey was conducted of N=1,213 adults ages 18+ nationwide. N=1,103 interviews were conducted online and N=110 interviews were conducted via telephone. The interviews were conducted in English and Spanish, based on respondent preferred selected language.*

- *The survey was conducted using NORC at the University of Chicago's AmeriSpeak panel. AmeriSpeak is a nationally representative, probability-based panel of the U.S. household population. Randomly selected U.S. households are sampled with a known, nonzero probability of selection from the NORC National Frame and address-based sample, and then contacted by U.S. mail and telephone. More details about the NORC AmeriSpeak panel methodology are available [here](#).*

- *Sample A was asked among N=608 respondents.*

- *Sample B was asked among N=605 respondents.*

- *An asterisk (\*) in a response category means that less than 0.5% of respondents chose that response category and a dash (–) represents no response.*

- *"Asked" is the percentage of respondents from each survey population that are asked a question because they meet a criteria based on a response to a previous question, meaning not all respondents received that question.*

- *"All" is the percentage of the total sample.*

- *The following demographics were provided by NORC for each respondent from their panel profile: age, gender, and ethnicity.*

Thank you for agreeing to participate in our new AmeriSpeak survey! This survey is about health and technology. To thank you for sharing your opinions, we will give you a reward of AmeriPoints after completing the survey. As always, your answers are confidential.

Thinking some more about you...

1.	In general, how would you describe your own health, is it... **(ROTATE TOP TO BOTTOM, BOTTOM TO TOP)**

	*43%*	*TOTAL EXCELLENT/VERY GOOD*
	*19%*	*TOTAL FAIR/POOR*

	9%	Excellent
	34%	Very Good
	38%	Good
	17%	Fair
	2%	Poor

	–	Don't Know
	–	Refused/Skipped on web

2.	On average, how many different doctors, nurse practitioners, or other health care providers do you see for your health or medical care in a typical year?

	7%	0
	53%	1-2
	40%	3+
	20%	4+

	*2.7*	*MEAN*
	*2.0*	*MEDIAN*

	*	Don't Know
	*	Refused/Skipped on web

3.	In the past year, have you requested that your medical or health records be electronically transferred between two or more different doctors' offices, hospitals, or other health care providers?

	27%	Yes
	73%	No

	*	Don't Know
	*	Refused/Skipped on web

4.      When you visit your doctors or other health care providers, do they or you usually enter your health information into an electronic (computer-based) medical or health record?

    67%    Yes, all my health care providers use electronic health records
    18%    Yes, some of my health care providers use electronic health records and some do not
     3%    No, none of my health care providers use electronic health records

    12%    Don't Know
      *    Refused/Skipped on web

---

*(ASKED IF Q4:3-4 – NO OR DON'T KNOW, N=189)*

5.      And, if your health care providers did have electronic health records, would you personally want to be able to access and view your electronic health records through a website, an online portal, an app on your phone, or electronically in some other way?

    **Asked**   **All**
    78%     12%     Yes
    21%      3%     No

     1%      *      Don't Know
      *      *      Refused/Skipped on web

---

*(ASKED IF Q4:1-2 – YES, N=1,022)*

6.      Some people are able to access and view their electronic health records through a website, an online portal, an app on your phone, or electronically in some other way. Are you personally able to do this?

    **Asked**   **All**
    42%     36%     Yes, I can do this for all my health care providers
    29%     25%     Yes, I can do this for some of my health care providers
    12%     10%     No, I cannot do this for any of my health care providers
    16%     14%     I don't know if I can do this

     1%      *      Refused/Skipped on web

---

***(Q7-Q22 ASKED OF HALF SAMPLE A, N=608)***
Listed below are some of the different types of information in a patient's electronic medical or health records.

For each, please select if you personally would or would not want to be able to electronically access, view and download this kind of information from your electronic health records or if you do not care either way. **(RANDOMIZE)**

| | Yes, I Would Want Access | No, I Would Not Want Access | I Do Not Care If Have Access | Don't Know | Refused/ Skipped on Web |

**(TRANSITION FOR THE HALF SAMPLE B THAT GOT QUESTIONS Q25-Q41)** Thinking again about enabling different health care providers to share patient health record information between their electronic health records systems when they are caring for the same patient...

**(ASK ALL)**

42.  Today, health care providers use a patient's name, address, and date of birth to match records for the same patient across different health care providers and facilities. If this information is incorrect, a patient's health record might not be able to be matched and shared between that patient's different health care providers.

Would you support or oppose the federal government setting national standards to more accurately match up a patient's electronic health records across multiple health care providers?

Do you... **(ROTATE TOP TO BOTTOM, BOTTOM TO TOP)**

| | |
|---|---|
| *74%* | *TOTAL SUPPORT* |
| *25%* | *TOTAL OPPOSE* |

| | |
|---|---|
| 29% | Strongly Support |
